Safety Data Sheet **Dried sand**

Section 1: **Material and Supplier Information**

Product Name: Dried sand Applicable In: Australia

Other Names: Australian builders Dried sand

Recommended Use: Dried sand can be used for mortar, concrete mixes, filling gaps and paving

Company Details: Independent Cement & Lime Pty Ltd

750 Lorimer Street

Port Melbourne, VIC 3207 ABN 49 005 829 550

Emergency contact details: Contact Person: Technical Manager

Telephone: Office hours 03 9676 0000 or Poison information center 13 11 26

Phone: VIC 03 9676 0000 Fax: VIC 03 9646 4954

This Safety Data Sheet (SDS) is issued by Building Product Supplies Pty Ltd in accordance with the Code and guidelines from the Australian Safety and Compensation Council (ASCC). The information in it must not be altered, deleted or added to. Building Product Supplies Pty Ltd will not accept any responsibility for any changes made to its SDS by any other person or organization. Building Product Supplies Pty Ltd will issue a new SDS when there is a change in product specifications and/ or ASCC standards, guidelines or regulations.

Section 2: **Hazards Identification**

Statement of This product is classified as HAZARDOUS according to Safe Work Australia criteria. Not

Classified as a dangerous good by the criteria of the ADG code, IMDG or IATA.

GHS Classifications

Specific Target Organ Systematic Toxicity (Repeated Exposure): Category 2

SIGNAL WORD WARNING

Pictograms

Hazard Statements

H373 May cause damage to lungs and respiratory tract through prolonged or repeated exposure.

Prevention Statements

P260 Do not breathe dust/fume/gas/mist/vapours/spray

P280 Wear protective masks

Response Statements

P314 Get medical advice/attention if you feel unwell.

Disposable Statements

P501 Dispose of contents/container in accordance with relevant regulations.

Section 3: Composition / Information on Ingredients

Ingredient	Formula	Proportion	CAS Number
Sand	Not given	>99%	14808-60-7
Crystalline silica (Quartz)	SiO ₂	<1%	14808-60-7

Section 4: First Aid Measures

Eye: If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until

advised to stop by a Poisons Information Centre or a doctor.

Inhalation: Remove from dusty area to fresh air. If symptoms persist, seek medical attention.

Skin: Remove heavily contaminated clothing immediately. Wash off skin thoroughly with water. A

shower may be required. Seek medical attention for persistent irritation or burning of the skin.

Ingestion: Rinse mouth and lips with water. Do not induce vomiting. Give water to drink to dilute stomach

contents. If symptoms persist, seek medical attention.

Advice to Doctor: Treat symptomatically.

First Aid Facilities Eye wash station.

Safety Data Sheet 27 November 2017 2 of 7 Sand

Additional Aggravated Medical Conditions

Information

Inhalation Over exposure resulting from prolonged and repeated inhalation of dust containing crystalline

silica can cause bronchitis, silicosis (scarring of the lung). It may also increase the risk of scleroderma (a disease affecting the connective tissue of the skin. Joints, blood vessels and internal organs) and lung cancer. Epidemiological studies have shown that smoking increases the risk of bronchitis, silicosis (scaring of the lung) and lung cancer in persons exposed to

crystalline silica.

Skin If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running

water. Continue flushing with water until advised to stop by a Poisons Information Centre or a

doctor.

Eye If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until

advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

Section 5: Fire Fighting

Flammability: Not flammable. Does not support combustion of other materials.

Fire and Explosion: No fire or explosion hazard exists.

Extinguishing: Non-flammable; Silica sand is an extinguishing medium and fire retardant

Hazchem Code: None Allocated

Section 6: Accidental Release Measures

Precautions for safe handling: Wear dust proof goggles, PVC/rubber gloves, a Class P2 respirator (where an inhalation risk

exists), coveralls and rubber boots. Clear area of all unprotected personnel. Prevent spill entering drains or waterways. Collect and place in sealable containers for disposal or reuse.

Avoid generating dust.

Emergency Follow safety requirements for personal protection under Section 8

Exposure Controls/Personal Protection.

Procedures

Section 7: Handling and Storage

Handling: Before use carefully read the product label. Use of safe work practices are recommended to

avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing

hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

Storage: Store off the floor in the original bags in a cool, dry, well ventilated area, removed from

excessive moisture and heat.

Property/Environmental Refer to Section 13.

 Safety Data Sheet

Section 8: Exposure Controls / Personal Protection

Ventilation Do not inhale. Use with adequate ventilation. Where a dust inhalation hazard

exists, mechanical extraction ventilation is recommended. Maintain dust levels below the

recommended exposure standard.

Exposure Standards Silica crystalline- Quartz (14808-60-7)

ES-TWA: 0.1 mg/m³ (Respirable Dust)

PPE Wear dust proof goggles/Safety glasses and rubber or PVC gloves. Where an inhalation risk

exists, wear a clear P2 respirator. At high dust levels, wear a Class P3 respirator or a Powered

Air Purifying Respirator (PAPR) with class P3 filter.

Section 9: Physical and Chemical Properties

Appearance Off white colour granular Solubility (water) Slight, hardens when mixing

with water.

Odor Odorless **Specific Gravity** 2.9 to 3.2

pH (in water) Not Available **% Volatiles** Not Available

Vapor PressureNot AvailableFlammabilityNon-Flammable

Vapor DensityNot AvailableFlash PointNot RelevantBoiling PointNot AvailableUpper Explosion LimitNot Relevant

Melting Point> 1200°CLower Explosion LimitNot Relevant

Evaporation Rate Not Available Autoignition Not Available

Temperature

Bulk Density 1450 -1800 kg/m³

Particle Size < 1 mm

Section 10: Stability and Reactivity

Chemical Stability: Chemically Stable

Conditions to Avoid: Keep free of moisture

Incompatible Materials Incompatible with strong acids

Decomposition Products: Unlikely to evolve toxic gases when heated to decomposition.

Hazardous Reactions: None

Section 11: Toxicological Information

Acute Toxicity No known toxicity data for this product.

Eyes Contact may result in mechanical irritation, redness, rash and dermatitis.

Skin Contact may result in mechanical irritation, redness, rash and dermatitis.

Sensitization This product is not known to be a skin or respiratory sensitiser

Mutagenicity Insufficient data available for this product to classify as a mutagen.

Carcionogenicity Sand is not classified as a carcinogen by NOHSC. Crystalline silica and

hexavalent chromium compounds are classified as carcinogenic to humans (IARC Group 1), however due to low levels present and product application,

the criteria for classification is not met.

Reproductive Insufficient data available to classify as reproductive toxin

STOT-single exposure Not classified as causing organ effect from single exposure

STOT-repeated exposure Repeated exposure to respirable silica may result in pulmonary fibrosis

(silicosis). Silicosis is a fibronodular lung disease cause deposition in the lungs of fine respirable particles of crystalline silica. Principal symptoms of

silicosis are cough and breathlessness

Aspiration This product is not expected to present an aspiration hazard

Section 12: Ecological Information

Toxicity The main component/s of this product are not anticipated to cause any adverse effects to the

environment.

Persistence and

Degradability

Product is persistent and non-degradable.

Mobility in Soil A low mobility would be expected in a landfill situation.

Section 13: Disposal Considerations

Waste Disposal Reuse or recycle where possible. Alternatively, ensure product is covered with moist soil to

prevent dust generation and dispose of to an approved landfill site. Contact the manufacturer

for additional information.

Legislation Dispose of in accordance with relevant local legislation. Keep out of sewer stormwater

drains.

Section 14: Transport Information

Not classified as a dangerous good by the criteria of the ADG code.

Transport is by rail or road in bulk or bag form.

Drivers of trucks transporting bagged products should ensure that the bags are properly restrained.

Section 15: Regulatory Information

Poison Schedule AICS A poison schedule number has not been allocated to this product using the criteria in the

Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP). All chemicals listed on

the Australian Inventory of Chemical Standards (AICS).

Section 16: Other Information

Additional Information ABBREVIATIONS:

mg/m³ - Milligrams per cubic metre

ppm - Parts Per Million

ES-TWA - Exposure Standard - Time Weighted Average

CNS – Central Nervous System NOS – Not Otherwise Specified

pH-relates to hydrogen ion concentration – this value will relate to a scale of 0 – 14, where 0

is highly acidic and 14 is highly alkaline.

CAS# - Chemical Abstract Service Number – used to uniquely identify chemical compounds.

IARC – International Agency for Research on Cancer.

Report Status This document has been compiled by Building Product Supplies the manufacturer of the

product and serves as the manufacturer's Safety Data Sheet.

While the information in this Safety Data Sheet has been prepared in good faith, Building Product Supplies does not warrant that the information is accurate, complete or up to date.
